OLAYODE ADESHINA

SOFTWARE ENGINEER

LinkedIn | 09036176161 | Email | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 4 years of hands-on experience in developing and launching responsive mobile and full-stack web applications. Ability to contribute to significant revenue growth, as demonstrated by spearheading product launches that generated over $5M.

SKILLS

Frontend: React.js, HTML/CSS, JavaScript, Bootstrap, Tailwind

Mobile App: Flutter, Dart   **Backend:** PHP (Laravel), Python, MySQL, Firebase

Tools/APIs: Git, GitHub, Postman, REST-APIs, CI/CD

EDUCATION

University of Ibadan (UI)   **MSc Civil Engineering**   **March, 2025**

PhD Grade 6.88/7.00, Departmental best graduating student.

Ladoke Akintola University of Technology (LAUTECH) B.Tech Agricultural Engineering June, 2021

Second Class Upper division, Graduated between 97th percentile in a class of 120 students.

WORK EXPERIENCE

RAOLAK Technologies   **Software Engineer**   **December, 2024-Present**

- Developed responsive mobile apps using Flutter/Dart, enhancing user experience across Android and iOS platforms, and implemented full-stack web solutions with JavaScript, Bootstrap and PHP.

Maysync Group   **Software Engineer**   **August, 2021-November, 2024**

- Developed responsive web apps using React and Tailwind for frontend, with PHP(Laravel), Python for backend solutions.

RAOLAK Technologies   **Product/Operation Manager   October, 2022–April, 2025**

- Managed daily product updates and analyzed operational reports for performance metrics.
- Spearheaded market research and product launches generating over $5M in revenue.

PROJECTS

Naira4coin App   *Tech Stack: Flutter (Dart), Firebase, PHP (API), MySQL*

Crypto to Naira Exchange Platform   Direct APK: naira4coin.com/app/4.apk

- Developed a mobile app that allows users to sell crypto such as BTC, USDT, ETH, SOL for instant naira payouts directly to their bank accounts with including a custom backend API for wallet input handling, real-time rates conversion, and automated bank transfers.

MobileNig Website   **Tech Stack:** *PHP, Bootstrap, JavaScript, MySQL* **Bills Payment and Utility Purchase Platform**   **Live at:** mobilenig.com

- Built a mobile app that enables users to purchase airtime, data, electricity tokens, WAEC/JAMB/NECO forms, and other digital services.
- Integrated payment gateway and automated service APIs for fulfillment of purchases.

Raolak Event   **Event Management Web Application** *Tech Stack: PHP, Laravel, MySQL, Bootstrap, JavaScript*   **Live at:** event.raolak.com/portal **&** event.raolak.com/admin

- Developed a full-featured event management system allowing organizers to create, manage, and promote events, ticket booking, and email notifications.

MealFed   **Food, Grocery & Medicine Delivery Platform**   **Tech Stack:** *Flutter (Dart), Firebase, PHP (Backend), MySQL*   **Web app: mealfed.com**   **Appstore: mealfed iOS**

- Developed web apps for underserved Nigerian towns, with real-time order tracking, payments, and delivery management system.

Bubu Browser App   **Modern Web Browser App**
Tech Stack: Flutter (Dart), Firebase, PHP (API)   **Direct APK:** Bubu browser APK

- Developed a mobile app that allows users to sell crypto such as BTC, USDT, ETH, SOL for instant naira payouts directly to their bank accounts with including a custom backend API for wallet input handling, real-time rates conversion, and automated bank transfers.

AFFLILIATIONS

- Graduate Member, Nigeria Society of Engineers (NSE)
- Member, Nigerian Institution of Agricultural Engineers (NIAE)

LEADERSHIP AND PROJECTS

- Member, Ecological Vanguards, Community Development Service, 2021-2022.
- Member Interview and Employment Committee, RAOLAK Technologies, 2024-2025
